About Me

I am a **Frontend** developer passionate about technology, specializing in **JavaScript** and **React**. I have worked in international teams under agile methodologies, including my participation in **ShipperPlanEx**, a **Home Depot US** project for managing the status of bulk shipments between branches.

In addition to development, I was also responsible for training new developers and collaborating on troubleshooting in production, working directly with the management team to identify and resolve issues.

Skills

 JavaScript

 React

 NodeJS

 Express

 English

 Material UI

Work Experience

Eviden (formerly Atos) | 2021-2025

I improved my **JavaScript** and **React** skills through a training program. Assigned to Home Depot US for project development.

- **Home Depot US | 2022-2025**

I collaborated on various projects with similar structures but different work methodologies depending on the team. I learned and applied **Material UI**, **Yarn**, and technologies such as **GCP**, **PCF**, **Spinnaker**, and **GHA**.

Procuraduría General de Justicia del Estado de Hidalgo | 2021

I started with **JavaScript** and **React**, developing a website that allowed citizens to file complaints online, making digital justice more accessible.
